Introduction

Thank you for purchasing the LINDY DVI-D Dual Link Video Splitter. This device allows a single DVI-D Dual Link signal source to be split to 2 or 4 DVI-D Dual Link displays or projectors for multi-screen presentation or home theatre use.

Depending on the length and type of cables used the DVI-D Video splitter can support resolutions of up to 2560 x 1600. To ensure maximum image quality is maintained throughout your installation then we re-recommend you use LINDY DVI-D Premium / Gold cables.

Features

- 2 or 4 Port DVI-D Dual Link Video Splitter
- Plug and Play installation
- Supports resolutions up to 2560 x 1600
- Built-in EDID simulator
- HDCP support for output port 1

Installation

The LINDY DVI-D Video Splitter is a true Plug and Play device which does not require any software or drivers to operate. Simply connect the appropriate cables from the source device to the input on the splitter and then connect appropriate cables from the splitter's outputs to your display monitors or projectors.

Please refer to the diagram below for a typical application using a 2 Port DVI-D splitter.

Power-Up Sequence

Ensure all equipment is turned off before connecting the DVI-D Video Splitter or cables. Once all cables are connected, first apply power to the DVI-D Splitter, then to your display monitors or projectors and finally apply power to the source device.

Note: When two active monitors are connected, the device will use the EDID signal from the monitor attached to OUTPUT 1.

Package Contents

- 2 or 4 Port DVI-D Dual Link Video Splitter
- 5V DC Multi Country PSU
- This user guide
- Rubber feet

Certifications

FCC Certifications

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received; including interference that may cause undesired operation.

CE Statement

This equipment complies with the relevant EC Regulations for IT Equipment

Recycling Information

WEEE (Waste of Electrical and Electronic Equipment), Recycling of Electronic Products

In 2006 the European Union introduced regulations (WEEE) for the collection and recycling of all waste electrical and electronic equipment. The wheeled bin symbol shown indicates that this product must not be disposed of with household waste. Instead the product must be recycled in a manner that is environmentally friendly. For more information on how to dispose of this product, please contact your local recycling centre or your household waste disposal service. Each individual EU member state has implemented the WEEE regulations into national law in slightly different ways. Please follow your national law when you want to dispose of any electrical or electronic products.

Germany / Deutschland

Die Europäische Union hat mit der WEEE Richtlinie umfassende Regelungen für die Verschrottung und das Recycling von Elektro- und Elektronikprodukten geschaffen. Das ElektroG – Elektro- und Elektronikgerätegesetz verbietet das Entsorgen von entsprechenden, auch alten, Elektro- und Elektronikgeräten über die Hausmülltonne! Diese Geräte müssen den lokalen Sammelsystemen bzw. örtlichen Sammelstellen zugeführt werden! Dort werden sie kostenlos entgegen genommen. Die Kosten für den weiteren Recyclingprozess übernehmen die Gerätehersteller.

France

En 2006, l'union Européenne a introduit la nouvelle réglementation (DEEE) pour le recyclage de tout équipement électrique et électronique.

Chaque Etat membre de l' Union Européenne a mis en application la nouvelle réglementation DEEE de manières légèrement différentes. Veuillez suivre le décret d'application correspondant à l'élimination des déchets électriques ou électroniques de votre pays.

Italy

Nel 2006 l'unione europea ha introdotto regolamentazioni (WEEE) per la raccolta e il riciclo di apparecchi elettrici ed elettronici. Non è più consentito semplicemente gettare queste apparecchiature, devono essere riciclate. Ogni stato membro dell' EU ha tramutato le direttive WEEE in leggi statali in varie misure. Fare riferimento alle leggi del proprio Stato quando si dispone di un apparecchio elettrico o elettronico.

Per ulteriori dettagli fare riferimento alla direttiva WEEE sul riciclaggio del proprio Stato.
